TRUST & SAFETY FESTIVAL

Innovate and Empower: Building for a Safer Digital World

Trust and Safety Festival India

7 & 8 OCTOBER 2025; DELHI, INDIA

From AI to digital rights, regulations, tech policy and algorithms, we invite the best of the industry to collaborate on emerging trends, issues and create solutions in digital spaces

Get ready for India's First Cyber Trust and Safety Festival
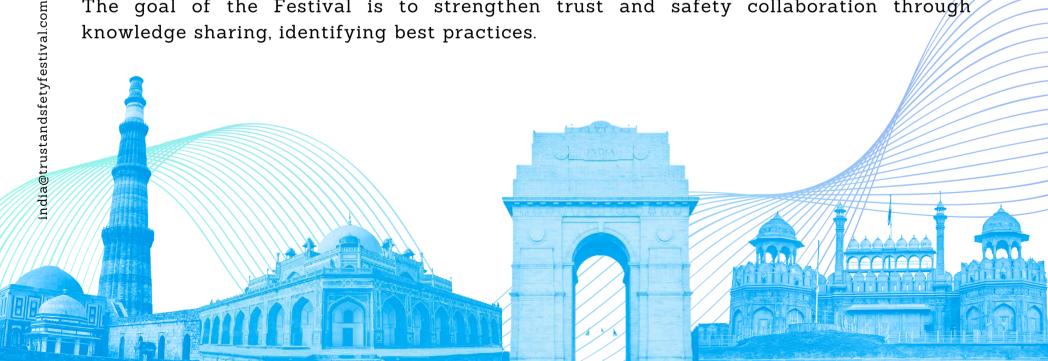

Centre for Social Research, India is thrilled to partner with the Trust and Safety Forum to host the inaugural India Trust and Safety Festival at Delhi in October 2025.

With over half of India's population online, this groundbreaking event, themed "AI: Innovation and Empowerment", will bring together trust and safety practitioners from industry, civil society, academia, and government to address some of the most pressing online safety challenges of our time. Discussions will cover critical topics such as combating digital harms and AI-generated content, empowering survivors of non-consensually shared intimate images, fostering youth well-being online, and tackling online scams and fraud.

The goal of the Festival is to strengthen trust and safety collaboration through knowledge sharing, identifying best practices.
